

Community Education/ Outreach/ Workforce Programs

Evening and Weekend Courses

Eastern Wyoming College is committed to offering a large variety of courses at times which meet the needs of busy adults. Course schedules will be mailed to all Goshen County residents. Outreach Coordinators will disseminate schedules to their community members. Schedules are available on the web at ewc.wy.edu. Phone-in registration is available.

Distance Learning Options

There has never been a better time to get your degree through online and distance learning. Let EWC show you how!

Eastern Wyoming College wants to bring quality education to every part of our service area and through distance education, everyone can have an opportunity to take college credit courses and earn a degree. EWC was recently approved by The Higher Learning Commission to offer four complete degree programs via distance.

- Interdisciplinary Studies AA degree and AS degree—This program offers a broad-based degree which includes all general education courses and lets the student choose among electives. Both of these degrees transfer well to four-year colleges and universities.
- Criminal Justice AA degree—Many career opportunities are offered with a criminal justice background. This program will help prepare you for this fast growing occupational field.
- Business Administration AAS degree—This flexible program provides an individual with entry level business skills with emphasis in accounting, office management, and computer areas. It will prepare the student to go to work in a variety of office and business occupations.

Classes are offered via Internet, compressed video, and videotape modes. A three year rotation schedule of distance classes ensures that all program requirements are met for the above degrees by one of these three modes. Eastern Wyoming College offers courses in many core areas including general education, business,

computer, criminal justice, education, social sciences, and human development.

Support services available to help students include technology support, student advising, registration, library, bookstore, counseling, financial aid, online registration, and online grade reports.

Consider the following:

- How comfortable are you with using technology such as computers, e-mail, and the Internet?
- Are you a self-directed, self-motivated, and self-disciplined student? It is important to stick to a schedule with distance courses.
- Are you comfortable with forms of interaction such as chat rooms, e-mail, or telephone calls?
- Do you have the time commitment to devote to a distance course? Distance courses require as much or more of your time than traditional classes.
- Are you willing to be an active participant and an advocate for your own education? Then distance learning may be for you!

For questions, please call the Outreach Office at (307)532.8346, or check the web at ewc.wy.edu.

Summer Session

One six-week summer session is offered each summer. Classes scheduled vary based upon student interest and demand. Short-term courses are frequently scheduled. Contact Registration and Records to request a summer schedule, or check on the web at ewc.wy.edu.

Adult Education

The Adult Basic Education (ABE) program at Eastern Wyoming College offers instruction in General Education Development (GED), adult literacy, English as a Second Language (ESL) and citizenship preparation at all outreach locations within the six county service area. Typically, students are provided with individualized instruction with either an instructor or college work-study tutor; however, traditional classroom instruction is also available. The ABE program

Community Education/ Outreach/ Workforce Programs

works with students to establish a convenient time of study, but it is the commitment of the student that makes the program function successfully. All ABE classes, materials and instructional technologies are free to participants enrolled in our programs. We are committed to making a difference in the lives of people we help so that they may achieve their academic goals. For more information, please contact 307.532.8399.

Community, Workforce, and Continuing Education

In addition to the regular academic and vocational programs offered during the day or evening, EWC has a comprehensive community education program.

There is an ongoing effort to develop courses and services to serve the recreational, avocational, cultural, vocational and social needs and wants of the people in the EWC service area using a variety of formats. Community education brings community members together in a manner that helps people to help themselves improve the quality of their lives.

Workforce Training and Continuing Education
In addition to the regular academic and vocational programs offered, EWC has a comprehensive workforce training and continuing education program. Our training includes, but is not limited to welding, computers, criminal justice, safety, medical, leadership, business management, and construction. Continuing education has been provided to real estate agents, insurance agents, education personnel, medical personnel, law enforcement, and others.

The college works with community groups, agencies, and businesses to enhance economic development efforts in our service area. Classes which cater to the business community will be offered in a short term, flexible format and delivery will be as quickly as possible. Tell us what your needs are and we will customize a class for you. Serving the needs of our workforce is vitally important to us. These classes may be done anywhere in our service area.

The State of Wyoming Department of Workforce Services has grant money for some of the trainings. ETSS and TANF grant money is available for custodial parents who meet

income guidelines for the welding program, the construction program, and the CNA program. Businesses may access dollars from the career training fund to finance training for their employees.

Contact the EWC Workforce Training Office at 307.532.8365 or 1.888.WORKWYO or 1.888.967.5996.

Senior Citizen Program

The college will admit all persons who are residents of the State of Wyoming, and 60 years of age or older, to enroll without tuition charges in any **credit** courses offered by Eastern Wyoming College. Seniors are expected to pay for fees, books and materials for each class in which they enroll.

Outreach Program

The college is working cooperatively with the public schools in its six-county service area in Eastern Wyoming to provide a wide variety of programs, activities, and services. Many of the high schools offer concurrent enrollment classes. Concurrent enrollment is an option whereby high school students may earn college credit while still in high school under certain conditions. In addition, the college has outreach coordinators in most of the towns in the six-county service area. These coordinators offer credit and non-credit classes in their communities. The college has a branch campus in Douglas which offers day and evening courses emphasizing general education, business, and computer areas. For more information check out our web site at ewc.wy.edu.

The Associate of Arts Degree, the Associate of Science Degree, the Associate of Applied Science Degree, or certificates may be earned entirely off campus providing the student earns a minimum of twelve hours from Eastern Wyoming College and completes the curriculum requirements of a selected major.
