

Improvement Dimension

Website Discussion:

- There is not a formal assessment in place
- Other college websites are evaluated on a regular basis to garner best practices and current trends
- A new EWC website will be rolled out on March 20. The process for this involved the creation of a committee made up of students, faculty and staff. They were first asked to submit their three favorite sites and why they liked them. From this information, five mock-up home pages were built. Comments from the same group and additional persons were sought on the mock-ups. The webmaster then took the feedback and developed the look for the new website.
- The webmaster is also sent to professional development conferences and workshops.
