Planning Notes

The Beef Production Certificate program is an intensive curriculum designed to train the student for an entry level management position in the Production Livestock Industry.

1. AGEC 1970 is a requirement for completion of the Beef Production Certificate with an exit interview/oral exam. Check with your AG Advisor.

This degree requirement sheet is not a substitute for meeting with your academic advisor. The credits outlined on this sheet are the minimum for graduation from Eastern Wyoming College; ultimately the responsibility for fulfilling all requirements is the students'. The EWC catalog is the final document for determining courses and requirements.
