WORKFORCE DEVELOPMENT

**Providing access to learning for
 careers and for life.**

OUR PURPOSE

Eastern Wyoming College and the Workforce Development Center can deliver economical training programs to enhance your personal development or improve your company's workforce.

- Work with you to deliver convenient, high-value solutions that fit your needs.
- Provide value-added learning opportunities that enhance economic development.
- Create partnerships with individuals, and businesses, and industries for lifelong learning.
- Serve as the educational partner for your organization.

CUSTOMIZED TRAINING

Designed to help individuals and businesses compete in today's fast-paced world by providing them with up-to-date skills and certifications. We offer a wide range of programs with flexible scheduling at an excellent value, all taught by some of the best professionals in business and industry. Customized courses can be provided either at our training facilities or on-site at your location.

Training grants are available – contact us for more information!
