EXECUTIVE SUMMARY

The Fall 2009 headcount increased 12.7% and the FTE increased 12.8% compared to Fall 2008. Full-time headcount was up 83 students and part-time headcount was up 108 students resulting in a total increase of 191 students. The number of students who attended EWC for the first time in Fall 2009 was up 47 full-time students and up 99 part-time students. The number of students who had attended EWC anytime prior to Fall 2009 was up 36 full-time students and up 9 part-time students. Goshen County was up 43 full-time and up 34 part-time students, and Outreach increased by 40 full-time and increased 74 part-time students. Goshen County FTE increased by 62.96 FTE, and Outreach increased by 74.31 FTE. Outreach accounted for 37% of the FTE.

Credit course offerings are provided as regular courses in both Goshen County and the 12 outreach sites. In addition, concurrent enrollment in the high schools, and distance learning courses are also offered. Outreach had 48.23% of its 449.41 FTE from concurrent enrollment courses. Goshen County courses generated 762.42 FTE of which 7.20% were from concurrent enrollment courses, 4.78% from evening courses, and 12.53% from distance education courses. Concurrent enrollment courses generated 57.0% of the 380.24 non-LEA (Wyoming Law Enforcement Academy) FTE from outreach.

One of the challenges in scheduling courses is determining the time and delivery method that will best serve the largest number of students and accommodate the needs of non-traditional and site bound students. Some of the on-campus day students enrolled in distance learning and/or evening courses may prefer to take the courses during the daytime in a regular course setting; however, that option is not always available. The 42 distance education courses served 135 students living in EWC's outreach areas and 125 students living in Goshen County for a total of 260 students. However, 95 (76.0%) of the 125 students in Goshen County were also enrolled in regular on-campus day courses. Similarly, the 20 on-campus credit evening courses served a total of 146 students with 85 (58.23%) of the students also enrolled in regular on-campus day courses.

Developmental courses are offered for those students who do not have college level skills in reading, writing, and mathematics. There were 169 students enrolled in developmental courses, which accounted for 5.06% of the FTE. Of the 169 students enrolled in developmental courses, 150 (88.76%) of those students are seeking an associate degree or certificate.

The total Fall 2009 headcount was 1696 students. Of those students, 964 (56.84%) were non-degree seeking. The academic programs with the largest enrollments were Interdisciplinary Studies, Welding & Joining Technology, Veterinary Technology, and Pre-Nursing. Eastern Wyoming College provides numerous non-credit and workforce development offerings. EWC's non-credit enrollment was 1432 students compared to 1,195 students in Fall 2008. EWC's workforce development efforts provided 61 credit courses totaling 126.84 FTE and 49 non-credit courses meeting for a total of 478.00 contact hours to provide further educational opportunities for individuals in or preparing to enter the workforce.

The Fall 2009 on-campus, full-time students came from 29 states and four foreign countries. Most of the students came from five states: Wyoming, Nebraska, Colorado, South Dakota, and Montana. Within Wyoming, the full-time, on-campus students came from 20 counties, with the majority coming from Goshen, Laramie, Platte, and Crook. The gender distribution for all credit students was 39% male and 61% female. The ethnicity distribution was 70.46% white non-Hispanic, 22.64% unknown ethnicity and race, 3.54% Hispanic, and 3.36% all others. The average age of students enrolled in credit courses was 27.8 with a 22.41 average for full-time students and a 31.06 average for part-time students.

There are numerous ways to analyze EWC's enrollment trends and student population and there are many factors, both internal and external, which affect enrollment trends. We have no control over the external factors, which include the state of the economy, the unemployment rate and the number of high school graduates. In any given year, there are many factors which may have affected the increase or decrease in enrollment.

EWC experienced a 12.7% increase in total student headcount as compared to Fall 2008. The total student headcount of 1,696 students reflects an overall increase of 191 students. Not including LEA, total full-time enrollment is 86 students above the five-year average and total part-time enrollment is 65 students above the five-year average for a total of 151 students above the five-year average.

WORKFORCE DEVELOPMENT

Workforce development activities are defined as *any training and/or educational related service leading to the acquisition of skills necessary to perform the duties of a particular job for those individuals in or preparing to enter the workforce.* Only those courses organized or coordinated by EWC's workforce development efforts are included in the following table by career cluster as defined by the National Association of State Directors of Career Technical Education Consortium.

Credit Courses

EWC's workforce development offerings for college credit increased by 9 course sections compared to Fall 2008. The duplicated student headcount increased by 119 (22.5%) students, and the FTE increased by 18.3 (16.9%) FTE. Workforce FTE represented 10.47% of total FTE.
