"A History of World Agriculture" by Marcel Mazoyer

During the twentieth century, mechanization, motorization and specialization have brought to a halt the pattern of cultural and environmental responses that characterized the global history of agriculture until then. Today a small number of corporations have the capacity to impose the farming methods on the planet that they find most profitable. Mazoyer and Roudart propose an alternative global strategy that can safeguard the economies of the poor countries, reinvigorate the global economy, and create a livable future for mankind.

NEWS

Peterson Farm Bros. @ EWC

Please join us on April 23rd at 7 p.m. in the FA Auditorium to listen to Greg Peterson talk about "Advocating Agriculture through Social Media". This event is free and open to the public. We only ask for a free will donation of a non-perishable food item for the local food pantry. Greg and his brothers became an overnight sensation when their video "[I'm farming and I grow it](#)" went viral.
