How to Choose SMARTER Strategies

1. Review your Individual Report and check (✓) the strategies you'd like to try.
2. Write the strategies on this SMARTER Strategies sheet. Combine strategies that work together. Include specific materials that you will need such as the color of filters or cards.
3. Include strategies you are already using that work for you. Add any others you'd like to try.
4. Decide if each strategy should be used all the time or only some of the time.
5. Check off the strategies you find useful. Use an "X" or cross out those that didn't work for you.
