

Library Tidbits

FEATURED

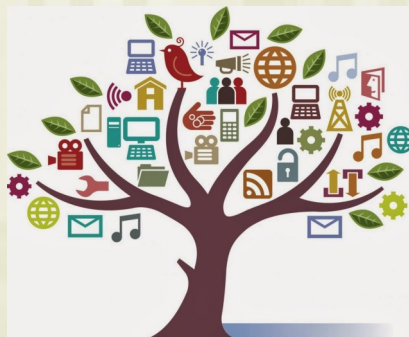

Additions, deletions & updates

Two databases have been added to the A-Z list. CINAHL is the core research tool for all areas of nursing and allied health literature. Anatomy.tv provides 3D imaging of the human skeletal, muscle and nervous systems.

Due to the statewide budget cuts some resources have been let go. Those include Anatomy & Physiology Revealed, American Song, BooksinPrint, Contemporary World Music, CRC Handbook, Jazz Music Library, JBI Nursing and Oxford Dictionaries Pro.

Updates include a new platform for LibGuides. Over the summer we migrated to the new platform and once the semester gets under way there will be more time to utilized the new features. Faculty may

request specific LibGuides for their class or subject area. Choice Reviews Online also moved to a new platform.

“Tomorrow hopes we have learned something from yesterday.”

– John Wayne

Reminders

Faculty that would like to schedule library instruction should do so at least a week in advance to assure there are no conflicts with the desired date and time.

For reserve materials please allow at least 24 hours for the material to become available once you have discussed the items with the librarian.

Faculty are more than welcome to bring classes to the library for work days or research sessions that do not include library instruction. Please call ahead to make sure your class time does not conflict with a previously scheduled class.

Your library card is your college ID card. Please visit the library to activate your library card number.

NEWS
