

# Eastern Wyoming College

## Veterinary Technology

### Clinical Observation Verification Form

The Eastern Wyoming College Veterinary Technology Program requires students entering the Veterinary Technology program to explore their chosen career field. A minimum of 8 hours of observing or working in some aspect of the animal industry is required for entrance into the program. This observation must be under the supervision of a trained veterinary technician. Any questions regarding this entrance requirement, please email the EWC Veterinary Technology Program Director at [cmitchell@ewc.wy.edu](mailto:cmitchell@ewc.wy.edu).

Optional: Students that choose to do 40 hours or more of observation will receive 25 points extra credit in Orientation for Veterinary Technicians (VTTK 1500), which is a required course for veterinary technicians and veterinary aides.

Email your completed form to [cmitchell@ewc.wy.edu](mailto:cmitchell@ewc.wy.edu) or bring the completed form to EWC new student orientation.
