

Eastern Wyoming College

Archaeology and Anthropology **Introduction to Archaeology**

Archaeology is the study of human cultures of the past. Archaeologists collect data from the material remains left behind by human activity to reconstruct past cultural behavior and lifeways. Subfields of archaeology include Classical Archaeology, Historical Archaeology, Prehistoric Archaeology, Bioarchaeology, Geoarchaeology, Ethnoarchaeology, and Museology. Job opportunities in archaeology in Wyoming include Cultural Resource Management for private firms or for the BLM, National Park Service, etc.

ANTH I300 – Introduction to Archaeology – *3 credit hours*

Counts as a Social and Behavioral Science at EWC,
transfers as an A&S College Core and a USP Physical
and Natural World Course at UW.

Fall 2024 – Tuesdays and Thursdays – 2:30-3:45pm
Archaeology and Anthropology Lab – Tebbet 208
