

## Eastern Wyoming College

### *Archaeology and Anthropology* **Introduction to Museology**

Museology studies the various roles and responsibilities of museum professionals, including leadership, exhibit design and implementation, collections curation, education, engagement, and security. This course sets an experiential foundation for understanding museum practices and challenges, and is the first step in preparing for a museum-related career.

**ANTH 2070 – Introduction to  
Museology – *3 credit hours***

This course transfers directly as the Introduction to  
Museology I Course at UW.
