

## Eastern Wyoming College

### *Archaeology and Anthropology* **Archaeology Field School**

The 6-credit Archaeology Field School is an important requirement for jobs in archaeology, historic preservation, and cultural resource management. The course provides valuable hands-on immersive experience in field and lab methods for data collection, analysis and interpretation. Modern survey and excavation methods, mapping, geoarchaeology, site and lab photography, and essential archaeological record-keeping are a few of the topics covered.

#### **ANTH 2460 – Archaeology Field School— *6 credit hours***

This course fulfills the requirements of a field school at most universities, and provides valuable experience.

**Summer 2024 – Monday through Saturday –  
8:00am-5:00pm
